Mr. Lugan having read by the Clerk the response of the Secretary of the Treasury, under date of January 28th, to an inquiry in reference to the substitution of 10.40 bonds for 5.20's on deposit in the Treasury to secure the circulation of national banks, asserted that the sales of 10.40's to the amount of \$8,000,000 from the 1st of October, 1887, to the 21st of January, 1888, made by order of the Secretary of War, with the exception of its small sales, made at less premium than the regular quotations in the New York market. He also referred to a letter purporting to be written by the Secretary of the Treasury to a gentleman controlling a National Sank, stating that he would accept 10.40's in them of 5.20's at 8716, while in his report the Secretary says they had never been received at a higher rate than \$3.
